Volunteer / work experience _____

Past experience, if any, in marine biology, natural sciences, teaching, working with children, etc. (not required) _____

Other interests _____

How did you hear about Bay Shore Studies? _____

What interests you most about this program? _____

The training series for new volunteers starts in October. It consists of an introductory meeting and beach walk on Monday, September 24 at 6 p.m. plus eight half-day sessions on Monday mornings in October and November. New volunteers will accompany and observe experienced volunteers on several field trips before being given their own group of four to five students to lead. A final graduation class and luncheon will be held in late February.

Our volunteers commit to leading 10 or more two-hour field trips per full teaching season (between December and early June, during appropriate low tides).

Please sign me up to be a Bay Shore Studies naturalist volunteer. I will take the required classes, beach walks and training tours. My \$65 fee for the course is enclosed.

Signature

Checks can be made payable to the Richardson Bay Audubon Center. Please send the completed application and check to: Bay Shore Studies Volunteer Training, Attn. Carol Schwartz, 376 Greenwood Beach Road, Tiburon, CA 94920. A limited number of scholarships are available. Questions? Call Carol Schwartz at (415) 388-2524, ext. 113.
