

RICHARDSON BAY **Audubon**
CENTER & SANCTUARY

Guidelines for Bird Care and Safety following COSCO BUSAN Oil Spill

Please do not touch dead or sick birds.

For safety reasons, please leave birds alone.
This oil is highly toxic. The Richardson Bay Audubon Center has
trained professionals who will retrieve oiled birds.

If the bird(s) can swim, leave it where it is. These birds have the
greatest chance of survival. If you see injured or dying birds, please
contact us right away.

To report oiled birds:

In Marin call Audubon at (415) 388-2524

In San Francisco call (877) 823-6926

**Please encourage everyone to keep children
and dogs off beaches. If we step in the oil,
we spread the contamination.**

Thank you for your support and cooperation.
